Chief, Key West Bureau

Dear [Redacted]

STAT

STAT

As you know, [Redacted] has been named as Paraguay Bureau's next TDYer. This brings up a point that is very evident to you, I'm sure, but perhaps should be noted for the record. Paraguay Bureau has sent all its senior monitors to Key West already, and has now started sending its journeymen monitors. I am confident they will be able to perform admirably in the extra responsibilities--selection, editorial, and technical-- required at Key West. We will, of course, be keenly interested in your appraisal of these journeymen monitors.

Speaking of TDYs, I was recently asked if the Paraguay teletype section could provide TDY support to Key West. The word is out that Panamanian teletypists have done so. It would be good training for our teletype supervisor to have a stint in Key West. Keep us in mind and if such a TDY seems possible we can check with Ops to see about getting approval.

Guess you're pretty much able to keep up with events in Asuncion through your visiting monitors. We're enjoying it here greatly. Hope all's well with you.

Sincerely,

STAT
